

Since 1995, Assembling Dependable Engineering, Design, & Manufacturing Relationships

Avisor India transformers now available through Optima. Avisor, with over 50 years of transformer manufacturing experience (since 2004 in India), has wide experience providing cost-effective, low voltage solutions for a variety of end applications.

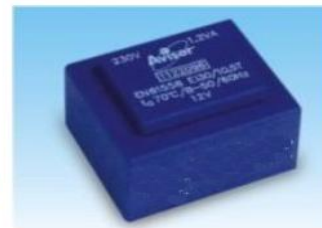

PCB Mount Encapsulated Transformers

Designed and manufactured to meet UL 506 standards for general purpose applications in power supplies, medium and low-power AC circuits, rectifiers, and other low-voltage supply requirements.

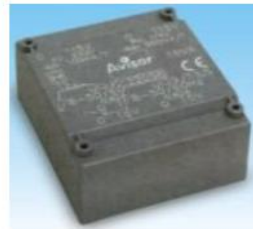

Standard Profile

0.35 to 60 VA Power Rating
EE20 TO EI75 Size
104F and 158F Working Temp

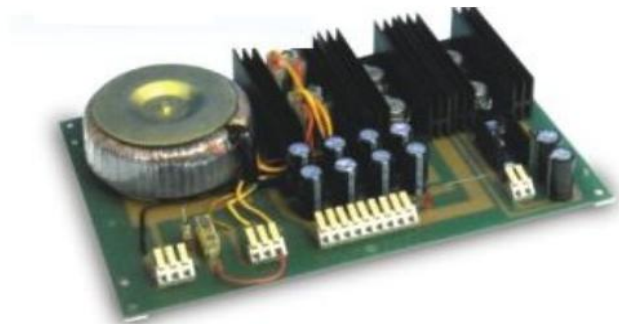

Low Profile

3 to 30 VA Power Rating
UI30 & UI39 Sizes
104F Working Temp

Toroidal Transformers

Wide range of standard toroidal transformers with power ratings from 20 to 3000 VA, used for appliances, lighting, power supplies, control applications, etc. Available for 115 and 230 V applications and many output configurations. Manufactured to VDE 0550 standards.

Also available Open Frame, Safety, Ferrite Transformers, plus Common Mode Chokes and Inductors!
